Before the border: document check

Prepare the evidence your route actually requires. Requirements vary; no checklist can promise admission.

Find the right rules first

- ☐ I checked the destination’s official entry information for my passport and purpose.
- ☐ I checked transit countries, required authorisations and passport conditions.
- ☐ I recorded the source, date checked and any unresolved questions.

Keep required evidence easy to show

- ☐ Passport and any required visa, approval or arrival form.
- ☐ Genuine onward booking if required, within the allowed stay.
- ☐ Accommodation address and booking or host details where requested.
- ☐ Insurance evidence if required, with the relevant dates and cover.
- ☐ Funds evidence in the form the destination accepts, if required.

Do not assume a balance screenshot or a credit card will be accepted everywhere. Check the requested evidence. Use genuine documents; don’t buy a “proof” service without understanding exactly what it provides.

My route-specific record

Requirement	Official source / checked date	Evidence location	Done

First accommodation and contact

Onward booking / date, if required

Question to resolve before departure

General document preparation

Save essential evidence offline and protect sensitive records. Keep originals and any paper documents required by the authority.
