Slow travel cost comparison

Moving less can reduce transport and settling-in costs. It isn’t automatically cheaper. Compare real quotes for the same number of days.

Destination / dates

Comparison currency / number of days

Cost for the whole period	More stops	Fewer stops
Accommodation, including fees		
Transport between bases		
Local transport		
Food and groceries		
Laundry / workspace / connection		
Activities		
Other / buffer		
TOTAL		

Daily average = total cost ÷ trip days. Include any discount conditions and extra journeys needed from a cheaper base.

Which pace gives me the sleep, work time and enjoyment I want?

My choice and what I am giving up to make it
