Visa & document tracker

Track each country separately, including transit where relevant. Check official rules for your passport, purpose and route. A tidy tracker is not proof of permission to enter.

Traveller / trip

Last checked / next review date

Country / transit	Official source + checked date	Permission + deadline	Status / next action

Track entry-by dates, permitted stay, validity, appointment dates and required supporting documents separately. Visa-free does not necessarily mean there are no other entry conditions.

My supporting documents

Document	Where saved	Valid / checked until	Action

Status labels that help

Not required after checking · Researching · Applying · Submitted · Approved · Issue to resolve · Documents complete
